Minister's Office

MEMORANDUM

May 31, 1935

DR. MCGILL

The following firms located at Sault Ste. Marie are to be invited to submit tenders on the equipment for the new Shingwauk Indian Residential School:-

Furniture, Rugs,
Curtains

M.J. Mahon,	669 Queen St. East.
Thompson Bros.	26 Queen St. East.
J.P. Lemay,	4 Wellington St. East.

Kitchen Utensils,
Kitchen Range,
Cream Separator, &c.

The Lyons Fuel, Hardware & Supplies,	368 Queen St. East.
The Cochrane-Dunlop Hardware Ltd.	388 Queen St. East.
The Greenwood Hardware Co.	712 Queen St. East.

A suggestion has been made to the Minister that the building should not be opened until it has been completely furnished. According to a letter on file from Rev. Mr. Westgate, it is proposed to open the School on June 21.

Please advise the Minister if the furnishings will be installed by that date, and if not let him have your views as to the advisability of withholding the opening until the School is completely outfitted.

George Buskard
Private Secretary.

Dear Sir,-

Under separate cover I am sending you a blue print copy of the details of the Cupboards, Lockers, Tables, etc. required for the new Shingwauk Indian Residential School.

I think the blue prints will give you all the information and the number required, and I would ask you to kindly submit a price at your earliest convenience. The lockers, cupboards, tables, etc. are to be built of Douglas fir, glued and mortised where required, stained and finished with three coats of varnish, the staining to match the woodwork in the school.

All the necessary hardware is also to be provided and the price quoted should be for the installation of this equipment in the Shingwauk School.

If there is any other information you desire I shall be glad to forward it.

Yours very truly,

Sault Mill Lumber Co.,
and the
Hessan Lumber Co.,
both of
Sault Ste Marie, Ont.

Dear Sir:-

Complying with your request
of May 15th, we are pleased to quote you,
according to your plans and specifications, the
sum of \$6,082.00, plus Sales Tax, for all millwork
as detailed.

All these cabinets will be finished
as desired, and will be set up in building to the
satisfaction of your Inspector or the Rev. Mr. Hives.

We understand that all shelving
and other work will be glued up from Kiln Dried
lumber, and that the job is supposed to be sanded,
and to present a creditable appearance. This is the
kind of work we propose furnishing, and hope to hear
from you with your order.

Very truly yours,

SOO MILL & LUMBER COMPANY.

Dear Mr Orr:

I am enclosing accounts from the
Cochrane Dunlop Hardware Ltd., for articles I
Have had to buy for the grading and leveling
of the grounds. I spoke to you about the
necessity of having these things in order to
do the work, and I have tried in every way to
get only what we required.

Miss Walton is still very busy
here. I expect she finds it difficult dealing
with some of these little "one horse" business
houses.

Yours faithfully.

WITH THE INSTANT

OVEN CONTROL

STYLE C150E ALL IVORY WITH BLACK TRIM

THE Findlay C150E Console electric range with the Instant Oven Control is peerless among modern electric ranges. To a range which already seemed the ultimate in utility and luxury has been added a wonderful, new, automatic oven heat control that sets this range in a class by itself. So compact in design that it requires only 41½" of kitchen space it is hard to realize how so much cooking capacity can be condensed into such a small space. Every worthwhile feature, every proved convenience is found in the Findlay C150E. Let us examine it in detail.

INSTANT OVEN CONTROL. This remarkable new automatic oven control (inset above) is found only on Findlay ranges. Set in the switch panel and taking up as little space as a switch this control operates with instant precision, quickly and accurately bringing the oven up to the desired baking temperature. No more watching a thermometer or listening for the control to "click". Simply set the control dial, turn on the oven switch and forget it. A tiny red pilot lamp just below the dial is the only indication that the oven is at work.

The OVEN itself is made of Armco Iron finished in mottled porcelain and electrically welded into a one-piece unit free from

leaks and distortion. It is a joy to bake in this wonderful oven—so simple to regulate and so easy to clean its rounded corners.

The **WARMING OVEN DRAWER** slides in and out on silent guides. No more lifting awkward loads through a narrow opening—simply put the plates and platter in the drawer and close it like a bureau drawer. The heat is applied from below and plates come out piping hot.

A **UTILITY DRAWER** for utensils is conveniently placed under the switches at the left side. This silent drawer is rubber-lined to deaden the noise of hastily dropped utensils.

Days of thought and effort have been put into this range to make it easy to clean. Every bolt, hinge and dirt-collecting nicknack has been eliminated or concealed and the surfaces are smooth almost to the point of severity. The result is a handsome range as easy to wipe off as a china plate.

The regular finish is all Ivory with Black Trim as shown above. However it is also made in Grey and White porcelain, Ivory and Green porcelain, or Ivory Porcelain shaded Green.

Oven burners, two of 1400 w and 1500 watts, and two 7 1/2	
Shipping weight—390 lbs.	

A compact, four-element console range with plenty of cooking capacity for the average family. Recommended for those desiring a fine modern range at an attractive price. OVEN—14" x 20" x 13" high, mottled blue porcelain finish inside, heated by two 1400 watt elements in the top and bottom. Accurate side-wall thermometer. COOKING TOP—21 1/2" x 23". One-piece porcelain casting fitted with two 9" elements of 1700 and 1500 watts and two 7 1/2" elements of 880 watts each. Further particulars alongside.

Note these Findlay Features:

- ELEMENTS:** Fast-heating, open, or sturdy ironclad elements are optional. Unless otherwise ordered, open elements are always supplied because they are cheaper, faster and, with reasonable care, usually outlast ironclad elements. On the other hand, if the range is used by inexperienced or careless help, we recommend Findlay Ironclad elements. They are spill-proof, durable and simply repaired without scrapping the whole element.
- SWITCHES:** Three-heat reciprocating switches are standard equipment, but load-balancing switches can be supplied where the Public Utility requires them.
- OVENS:** All ovens are constructed of rust-resisting Armco Iron, electrically welded into one piece and porcelain enamelled inside and out. The interior finish is mottled. The ovens on all Findlay Console ranges are big enough to take in the largest sizes of domestic covered roasting pans. Both oven elements are movable to facilitate cleaning.
- AUTOMATIC OVEN HEAT CONTROLS:** All ranges shown in this folder are supplied with the Instant Oven Control described across the page. They can, however, be supplied without this attractive feature at a somewhat lower price.
- APPLIANCE OUTLET:** An appliance outlet for iron or toaster is conveniently placed on the front of these ranges.

Findlay's INSTANT OVEN CONTROL

THE illustration above shows how the Findlay Instant Oven Control is mounted in the switch panel of a range. On the extreme right is the thermostat dial and next it the single switch which controls both oven burners.

The user has only to set the dial and turn the switch to "PREHEAT". The red pilot light comes on indicating that the oven is heating up. The Instant Control then brings the oven to the desired temperature and the red light turns off when the oven is ready for use. The control regulates all three oven operations, PREHEATING, BAKING and BROILING. So simple is its operation that a child can manage it.

Memorandum:

Mr. Williams.

I beg to give you the following particulars with reference to the furnishings required for the new Shingwauk Indian Residential School at Sault Ste Marie, Ont. Prices have been obtained from the firms in the Sault supplied by the Minister's Office. It is thought desirable to distribute the orders as much as possible among these firms, and I would therefore recommend that the equipment be purchased from the following firms:-

FURNITURE.

Thompson Bros., 26 Queen St. E., Sault Ste Marie.....	1670.00	\$1,924.50

CANADA

All of the above firms have quoted the lowest price in each case.

Since the first page of this memorandum was typed a letter has been received from Thompson Bros., the only firm who quoted on the folding chairs and the school desks, giving a revised quotation on these articles.

Their first quotation was as follows:-

50 - School Desks	\$822.50
240 - Folding Chairs	\$660.00

Their revised quotation is,-

50 - School Desks	\$662.00
240 - Folding Chairs	\$516.00

The amount of the order which it was recommended be placed with Thompson Bros., as shown on the first page of this memorandum, is \$1,984.50. Their revised quotation will reduce this amount by \$304.50, making it \$1,680.00.
