

E. G. C.

M

Evêché de St-Albert

117657

To the Very Honorable  
The Minister of the Interior,  
G<sup>l</sup> Superintendent of Indian Affairs,  
Ottawa.

St-Albert, Alta., June 11, 1912.

Very Honorable Sir,

I have the Honour to forward to you the Resignation of Rev. Father J. Riou, as Principal of the St-Joseph's Catholic Boarding Industrial School (Dumbow or High River) and to propose to you the appointment of Rev. Father George Nordmann as his successor in the post. Rev. Father Nordmann has already gained an experience of the work, as he has been acting practically the duties of acting Principal, for several months, during which Rev. Father Riou was busy receiving pupils. While staying on an Indian Reserve, Rev. Father Riou will still look after the recruiting of the Industrial School, and if the Dept. could afford to assist him in any way, viz., by paying his travelling expenses he could do still more.

As I consider Rev. Father G. Nordmann quite competent for the position of Principal of said School I feel sure that you will have no objection to have him appointed at an early date. He is already on the spot, acting, in the mean time, for the good of the school.

I have the Honour to remain,

Yours very respectfully,

Very Honorable Sir,  
Emile J. Regal  
Bp. of St-Albert

117657/1

Ottawa, June 19, 1912.

Right Reverend Sir,-

I have the honour to acknowledge the receipt of Your Lordship's communication of the 11th instant, and in reply I beg to say that the Department approves of the appointment of Rev. George Nordman as Principal of the St. Joseph's Industrial School to succeed the Rev. Father Riou.

The Department regrets that it cannot comply with Your Lordship's request to contribute towards the travelling expenses of Rev. Father Riou to recruit pupils for the school.

I have the honour to be, Right Reverend Sir,

Your obedient servant,

J. D. McLEOD

Assistant Deputy and Secretary.

Right Rev. E. J. Legal, O.M.I.,  
Bishop of St. Albert,  
St. Albert, Alta.

Ottawa, June 21, 1912.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 4th instant resigning your position as Principal of the St. Joseph's Indian Industrial School.

In reply I beg to say that the Department regrets that you have found it necessary to sever your connection with this institution. No doubt you will be ~~gna~~ able to do good work for the Indians of Alberta while you are working directly among them on their reserves.

Your obedient servant,

J. D. McLEAN

Assistant Deputy and Secretary.

Rev. J. Riou, O.M.I.,  
St. Joseph's Industrial School,  
Davisburg, Alta.

Ottawa, October 1st, 1912.

FILE

Rev. Sir:-

With reference to Department's letter to you of the 20th February, last, advising you of the appointment of Dr. Alfred Ernest Ardiel, as Medical Officer to the Indians of St. Joseph's Industrial School, I beg to state that no pay-list has been received from you for the Doctor's salary since he assumed his duties. You should forward a pay-list in duplicate for the period that he has worked, and hereafter send one promptly at the expiration of each month.

*[Handwritten signatures and initials]*

Your obedient servant,

Assistant Deputy and Secretary.

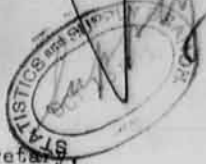

The Rev. Principal,  
St. Joseph's Industrial School,  
Davisburg, Alta.

The Secretary,

Dept. of Indian Affairs,  
Ottawa.

Sir:-

In reply to your letter 107,714-1. of the 1st. inst.  
re. pay-list I beg to say that we have no blank of that name  
in our office but if you will send us a supply I will see that  
they are filled in. If you have reference to the medical  
reports I may state that on May 31 last we sent you those for  
the months of February, March, April and May. If you did not  
receive them kindly let me know and I will send you copies of  
them. As soon as I can see the Doctor I will get the reports  
for the last four months and forward them to Ottawa. In future  
you shall have them monthly.

Your obedient servant,

Principal.

Ottawa, February 21st, 1913.

MEMORANDUM -

Mr. Pedley:-

Father Gröndin, O.M.I., called the other day and in the course of conversation asked whether the Department would be disposed to make arrangement for the purchase of the High River School property by the Oblate Order. You will remember we sold out our interest in the Duck Lake School ~~through this~~ <sup>to</sup> Order for the sum of \$300.00, the nominal value of the land. I pointed out that the position was somewhat different, as the Government had put all the money into the High River Institution. Father Gröndin ~~would~~ <sup>did</sup> not press the point, but I promised to bring the matter to your attention.

Sir:-

I beg to solicit some information re the mineral rights on School lands. I presume the Department holds all rights, if so I would like to know if I would be granted the permission of disposing of the oil rights for the benefit of the School.

At the present time from \$50 to \$100 per acre has been offered for the oil rights in this neighborhood.

I might add that there is an Oil Co. starting to drill within a few miles of the school and if oil is found there the value of oil leases will go up. Again I might say that the drilling for oil on the land would not interfere with the agricultural pursuits, but a supply of natural gas might be obtained which would be a great benefit to the institution.

I would like very much to have the opinion of the Department on this matter, and will thank you for an early reply.

Yours very truly,

*Rev. G. Ordway*  
Principal.

Extract of report of Inspector J. A. Markle on the St. Joseph's  
Industrial School.

460119

30. The pupils at this institution get a good deal of recreation. The girls play within the play room, and in the yard a number of games and are taken for walks by one of the sisters when the weather is fine. The boys play football chiefly during the summer months and during the winter they skate, coast and play hockey. Outdoor sport is necessary for their health but whether it is wise or unwise to encourage them to travel about to take part in such games is a question on which there are differences of opinion. If the pupils at these schools are encouraged to spend \$1.00 for every 50¢ they gain I fail to see how any claim can be consistently made that Indian children are financially improved by attending schools. The expense of travelling 100 miles to take part in a hockey match is no small item and it does not appeal to me as a wise procedure.

# BOYS NEGLECTED AT INDIAN SCHOOL, MOTHER CHARGES

Allowed to Run Wild Till Feet  
Are Torn and  
Bruised

SHE WILL SHOW THEIR  
WOUNDS TO THE POLICE

Never Again Will Mrs. Demerics Allow  
Offspring to Go to High  
River Institution

With trembling voice and tears in her eyes, a half-breed woman rushed into The News-Telegram office Tuesday and unfolded a tale. The inspector, he came to me—I live at Medicine Hat—the inspector he came to me—way back in March, and he asked me to let my two boys go with him to this school—I think it is a government school—and I let them go; they were to have good education, he said—good food, and good clothing—and I let them go. The school is at High River; yes, an Indian school—and since that time I swear to it they have had no care, no schooling, scarcely any clothes. Oh, if you believe me—how I found my two little boys this morning! All bruised—and they had no boots since April, and their feet sore and swelled, and lumpy—awful—horrible! The store-man, where I took them to buy boots—he said never, never, had he seen such feet. And their poor bodies, dirty and grained! When I reach Medicine Hat I will undress them and the police shall see. I swear to it there are neglected Indian children in that—what they call school. They are running wild, eating gophers, and without shoes, hats, or good clothing. My two boys, with little knee pants and thin shirts—that was all—and oh, they look so terrible. Please write it in the paper for me. Someone should go out to that school. Is it right that these poor children be ill-treated? If you could but see my boys!

Such was the charge Mrs. Demerics, half-breed Indian woman—made today when talking to Kate Wiltshire. The two children were at the station, but acting upon the advice of the shoe man, who saw the condition of the children's feet, she had come to The News-Telegram office, as directed, to tell her story. This morning she had visited the school and had taken her boys away, and was on her way to her

## I. O. G. T. Meeting Postponed

The next meeting of the Calgary Central lodge, I. O. G. T., is postponed until July 15, owing to today being a holiday.

home in Medicine Hat when she left the office.

The school inspector, she says, came to her in April and asked her to let the children go to the school with him. He asked no money, saying that clothing, food, care and education would be given, and the boys, aged eight and ten, were allowed to depart with him.

Mrs. Demerics visited the school yesterday, with the above result.

487774

Dear Sir:-

Norbert Adams, a half breed of this Town foolishly arranged to send his three children Eliza, Mary Rose and Roy to the Indian School at High River, Alberta. This school, I understand is intended purely for Indian children and not for half breeds.

Recently Mr. Adams visited this school for the purpose of bringing his children home for the holidays at least, which was one of the terms of the original agreement between him and the principal of the school. When he went up there he found that his children were not being properly looked after by the authorities of the school, that they were being abused, and in his own words that they were being used worse than dogs. He did everything possible to bring them away, but Father Norman, the principal of the school refused absolutely to let them go away. As a result he has asked me to appeal to you and obtain permission to secure his children. They should never have been taken there in the first instance as they are not Indians, and apart from that fact they are not being treated properly, to which latter fact Adams is willing to take affidavit, as he was there for some time and saw what was going on. Will you kindly give me

ARTHUR BURNETT,  
BARRISTER, SOLICITOR, ETC.,  
MAPLE CREEK, SASK.

- 2 -

W. M. Graham, Esq.,

permission by return mail to secure these children for this man.

I have the same application to make also on behalf of Crooked Leg, he has two grandchildren at this institution and wishes to take them away on the ground that they are not being treated properly. He went with Adams to the school and saw the condition, in which his grandchildren are and makes the same statement; claims that they are being abused worse than animals.

I am not going to say that he is entirely right in his statements, probably he has enlarged a little upon the true facts, but there must be something in the stories of these men.

I do not know whether it is possible for his grandchildren to be removed, if so, I would like permission to take them away, if not conditions should be rectified in this institution if there is any truth in the stories that these men tell of the cruelty and abuse going on at the school.

Yours truly,

*Arthur Burnett.*

OFFICE OF

## THE INSPECTOR OF INDIAN AGENCIES

Balcarres, Sask., Oct. 1st. 1914

Dear Mr. Scott,-

I have this morning returned from High River Industrial school, where I went to make arrangements for the discharge of the Halfbreed children that were in the institution contrary to the wishes of their parents. In a day or two I shall forward a report on this subject.

While at the school I looked into the matters about which Mr. Burnett complained, and you were quite right in thinking there was no foundation for such complaints. It appears that two Halfbreed women, who have children at the school, visited the institution during the Principal's absence, and found their boys running about barefooted and with their clothes a little torn. They were very angry about it and took the children away. They went to Calgary, interviewed one of the local papers and had quite an article written up condemning the school.

I found the children fairly well clad. The boys were perhaps not as tidy as they should be, but they were clean. The girls were in good condition. There was no preparation

Duncan C. Scott, Esq.,

made for my visit, as I was quite unexpected.

They receive good food and plenty of it. There is only one matter, <sup>I think</sup> that should receive your attention, and that is that they get very little milk. Only three cows are milked at this school of seventy pupils, which is absurd. There should be at least ten. I drew the Principal's attention to this matter and he said he was quite aware of this fact and that it was the same long before he took charge. He seemed willing to increase the number of cows, but intimated that the Sisters were to blame as they were strongly opposed to the girls milking. I think if a strong letter were written to the Principal insisting on more milk being used ~~he~~ <sup>he</sup> could use it to persuade the Sisters (who seem to have a great deal to say about things) to have more cows. They will not require to buy more as I understand there are 170 <sup>head</sup> in the school herd.

I think that instead of a single bath tub a shower bath should have been installed for the pupils. This can be changed if you wish it done. A shower is the proper thing at these schools. It is a pity the closets were installed in the corner of the play-room. A separate room should have been built for them.

Yours truly,

*H. M. Graham*  
Insp. of Indian Agencies.

October 9th, 1914.

Dear Graham :-

I have your letter of the 1st instant, with reference to the discharge of the halfbreed children from the St. Joseph's Industrial School. I am very pleased that you found conditions as you did at this institution.

I approve of your suggestion with regard to the milk supply and am writing the authorities to-day insisting that they must add to their milking herd.

I shall be obliged if you will give me a little more information in regard to the shower baths and we will have them installed. Is it only one that you suggest or more and in what particular locations? We shall then take the matter up with the authorities.

Yours sincerely,

*W. M. Graham*

October 9th, 1914.

Dear Mr. Markle -

I am informed that there are only three cows at present being milked at the St. Joseph's Industrial School to furnish a supply for seventy pupils, and I am to-day giving explicit instructions that several more cows must be added to the herd immediately to provide a greater supply of this very necessary article of diet. I shall be pleased to have you visit the school sometime in the near future to see if the Department's instructions are being carried out.

October 10th. 1914.

Dear Sir.

It has been brought to the attention of the Department that there are only three cows being milked at the St. Joseph's Industrial school at the present time to provide milk for seventy pupils. This number is decidedly inadequate to furnish this article of diet, so necessary for Indian children. It appears that it is not because the cows are not available but on account of the objection of the Sisters to the girls milking. It is considered that this objection is not in any sense valid, and the Department must insist upon at least seven cows being added to the milking herd so that the children may have an abundant supply of milk. I shall look to you to see that these instructions are carried out.

Yours very truly,

*Duncan Campbell*  
Deputy Superintendent General.

OFFICE OF  
THE INSPECTOR OF INDIAN AGENCIES

Balcarres, Sask., Oct. 19th. 1914 1915 5273

Dear Mr. Scott,

Your of the 9th. inst. to hand, with reference to shower baths at High River School.

At least two such baths should be installed, one for the boys and one for the girls.

My opinion is that a mistake was made in having lavatories installed in the corner of the boys' recreation room as I am sure there will be trouble from stench almost at once. What should have been done was to have added a small lean-to building just off the play-room for these closets. It would pay the Department to have this done even now. The cost would not be great. A lean-to 20'X18' connected with the play-room from the rear would provide for four lavatories and a good shower bath.

Yours sincerely,

*R. M. Cahoon*

117.657-1

Alberta Inspectorate,

December 5, 1914.

Ref. letter October 28th. 1914.

-472942

Sir,-

Six cows are now milked at the St. Joseph's School and the quantity of milk daily secured is about 12 gallons-equal to 96 pints of milk.

The staff at this institution numbers 13 and there are 50 pupils, total 63 persons.

If the 96 pints of milk equally divided among the 63 individuals each person would get about 1 1/2 pints daily.

No butter is made, the milk used, therefore, contains all of the cream.

Porridge is regularly served for breakfast and the pupils are allowed syrup with it. I would prefer the use of milk on the porridge for the reason that it is an available product without any cash outlay.

Practically all of the cattle here are of the beef strain, ranch bred and a tendency to be wild and inferior for use for milk purposes. While there are milking strains in the Short-Horn breed the grade Ayrshire-Shorthorn cross is generally a better dual cow, reasonably good for either giving milk or for beef purposes.

Duncan C. Scott, Esq.,

Deputy Sup't. General of Indian Affairs,

Ottawa.

There does not appear to be any plan of the St. Joseph's Industrial School on file in this Department, and as certain changes or additions are reported necessary in the interests of the school's sanitation, I have to request that you will send any plans that you may have of the building showing floors and elevations, and, providing none are available, you should make a sketch 8 ft. to 1 inch and showing clearly the rooms and their sizes with the doors and windows, also the ceiling height of the several stories and a rough elevation of the buildings.

The plans should be sent in as soon as possible.

Your obedient servant,

**J. D. MOLEAN**

Asst. Deputy and Secretary.

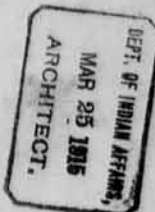

Rev. G. Nordmann,  
Daviesburg,  
Alberta.

Drugs required by Rev G. Nordmann, for St Josephs Industrial School, Davisburg, Alta.
