April 10th, 1933.

Reverend Sir,-

The Department has received the report of Doctor McInnis' examination of the pupils of your school. Funds are not available at the present moment to do any of this work, but it is anticipated that they will be available within a short time. It is thought that \$300 might be allotted for the purpose, and pending the time when the work may be proceeded with, it is desired that you will furnish the Department with your views as to how it can be accomplished in the most convenient and economical way. The \$300 is proposed to be divided between the tonsil and eye work in the proportion of \$200 and \$100.

Dear Sir:

In reply to your letter of the 10th. inst. I feel certain that I can make arrangements with the Halifax Infirmary, as we did for the cases last September .i.e for the tonsils.

As for the eye cases I will see T.J. Davis who has done the work for the past two years.

I suppose it will be alright to go that far and await word from you as to the time the funds are available.

I see where I will have to have this machine repaired.

Reverend Sir,-

Handwritten initials

In reply to your letter of April 14th, I may say that you may proceed to arrange for the attention required by your pupils who suffer from disease of the tonsils and defective vision. The plan outlined by you in that letter is satisfactory and funds will be available to meet the accounts as they arrive. While the total sum of \$300 may not be exceeded, you are not under obligation to divide the expenditure exactly as suggested in the Department's letter of April 10th, if you find it necessary to make a slightly different apportionment of the funds.

Yours truly,
