P.S.

I have to remind you that the measurement of whole pieces of cloth and the weight of whole packages of groceries is to be accepted as indicated upon the ticket or bag and that in cases where whole pieces or packages are accepted slight discrepancies between the total weights or measurements of the articles themselves and the quantities named in the schedule are not to operate to the prejudice of the contractor to whom receipts for the quantities actually delivered are to be given, as for instance 150 yards of cloth to which 36 inch are asked for, but the contractor might be obliged to send 3 pieces of 48 yards each in which case you would grant a receipt for 135 yards.
